The **Quantarium Value Range** is an investor-grade valuation that helps you better estimate the true value of a property. The **Low Range** and **High Range** indicate the confidence interval for the Quantarium value of the subject property. The **Confidence Score** indicates the predictive power of our valuation methods. The **FSD** (Forecast Standard Deviation) score is defined by Freddie Mac, and can be thought of as the probability that the valuation falls within a statistical range of the true value.

To see the complete property valuation, please access the **QVM Comprehensive** report.

Quantarium Value Range is not a guarantee of a property's value (see Disclaimers for further details).
